Website Information: Advisory Bureau Event - 15th JULY 2015

Advisory Bureau for Higher Studies- Jeppiaar Engineering College in association with Edwise International, Overseas Education Consultants welcomed the guest speaker Dr. James Jenkins Associate Dean, School of Life & Medical Sciences from University of Hertfordshire – United Kingdom on 15th of July. Dr. James lectured on ‘Investigating attitudes towards domestic and non-domestic water use as well as governmental and community responses to water usage and water quality’. The faculty members of Chemistry and Biotechnology Department,, undergraduate and post graduate students were greatly benefited by the insights and policy of water research discussed by the scientist. Technology based research areas applicable for Indian graduate students and also the eligibility criteria for the students to do Masters in the University of Hertfordshire under life sciences category were clearly discussed along with the student’s needs and desires to study abroad. At the end of the session one -to-one discussion with Dr. Jenkins took a good turn of PG students aspiring to apply to University of Hertfordshire, UK.
