About the College

Jeppiaar Engineering College, premier Engineering College inaugurated on 15th August 2001 is one of the prestigious institutions of Jeppiaar Educational Trust. It has large campus covering more than 48 acres of land with architecturally designed building located on the Rajiv Gandhi Salai, Chennai.

Jeppiaar Engineering College is affiliated to Anna University and in short span of time, it has grown into an institution that provides excellent technical education. The College conducts 9 UG courses and 6 PG courses. The College extends its full co-operation and support in shaping the young minds to content the present scenario at hand in academics and non academic activities aggressive to the global customs.

The College provides a platform for students and faculty to actively engage in frontier research programmes and research activities.

About the Department

The Department of Physics, a part of Science and Humanities Department was established in the year 2001 caters the basic knowledge of Physics a baseline for all Engineering stream.

The Department has well equipped laboratories having highly qualified faculty members. The Department have conducted workshop, symposium and science exhibition to inculcate and develop the research aptitude among students. The faculty members are enriched with research knowledge in their respective fields.

Faculty members encourage and assist the students in attending seminars, conferences and motivate them in paper presentation in various frontier areas of research.

About the Workshop

Advanced material synthesis and characterization is crucial for a successful ground breaking materials research. The scope of this workshop is to bring together researchers and academicians from a wide range of scientific disciplines such as Physics, Chemistry, Biology and Engineering as well as from all available technologies like Nanotechnology and Biotechnology. To discuss and promote actions to bridge the gap between Innovation Materials, Research Development and Processing and to meet the future societal challenges. The invited eminent speakers will deliver their lecture on production of materials, mastering their design, processes under a really sustainable systemic approach.

Resource Persons

The Workshop has many technical sessions and presentations by experts from National Laboratories and Universities in the field Nano materials, Magnetic materials and Biological materials.
