PERSONAL COUNSELLING

In Jeppiaar Engineering College constant and frequent counseling is given to the students. It is a part of daily routine of the college. When a student faces any problem, the class counselors are always available to help them solve it. They also motivate the students and help them concentrate on their studies. Even the year in charge helps the students to solve personal problems. If any bigger issue arises the head of the department takes incharge without any hesitation and solves the problem in a very friendly manner.

Class Counselor counseling students

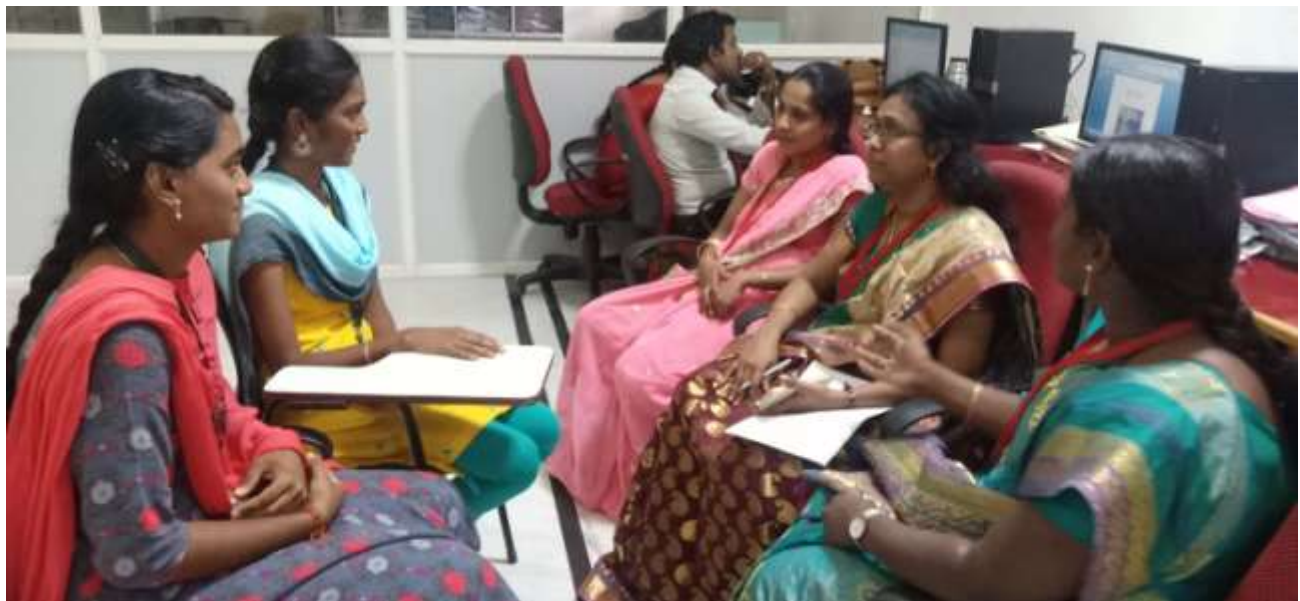

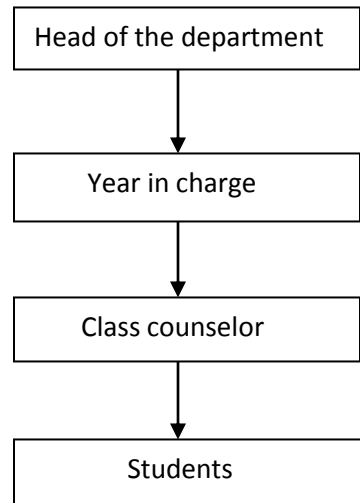

This holistic view of counseling enables services to reach and assist a vast majority of the campus community while contributing to an environment of support and encouragement.

Problems, worries and concerns are part of everyone's life from time to time. ... Confidential personal counseling can help one to understand and confront the challenges you face. Personal counseling provides an opportunity to explore your concerns in a supportive and non-judgmental environment.

Good mental health is vital for a successful college experience. Trying to balance school, work, relationships or other personal issues could easily cause a student stress. ... College counseling centers can offer a variety of services for students' mental health needs, often free of

charge. Counseling allows individuals to explore their feelings, beliefs, and behaviors, work through challenging or influential memories, identify aspects of their lives that they would like to change, better understand themselves and others, set personal goals, and work toward desired change. This is helpful for a variety of reasons, such as increasing an individual's self-awareness, encouraging self-exploration, identifying boundaries, enhancing communication skills and improving the use of healthy coping skills.

In Jeppiaar engineering college the following structure is followed for personnel counseling

Year Incharge counseling students

PSYCHOLOGICAL COUNSELING

Frequent psychological counseling sessions will be conducted by **Dr. Sai Rajan, Swram Hospital** for the students of Jeppiaar Engineering college students for them to adapt to environments plagued by rapid change, ambiguity, uncertainty, and depleted support systems. Students must also cope with a myriad of personal and psychological problems that range from basic adjustment and developmental, academic and learning, and career concerns to clinical-level mental illness. Within higher education, there exists general consensus that the ubiquitous role of personal and psychological counseling is to contribute to student development, adjustment, and learning while preventing dangerous and self-defeating behavior, thus enabling the individual to thrive in the college community

Dr. Sai Rajan, Swram Hospital Felicitated By Our Principal Dr. J Venugopala Krishnan

The increasingly overstressed population of our Indian Metros is vulnerable to anxiety, depression and other stress-related disorders. We have also been witnessing a spate of student

suicides, rape cases, domestic violence, child abuse, broken families, alcohol and drug addiction, all of which are a sad reflection of the mounting stress levels in our society.
