From this event, we came to know about the importance of waste segregation in our day to day life. We had realized the mistakes made by us, and came to know about the needs to be done for it. Struggles seen by the municipal corporation workers are really harmful and it cause many diseases to them. This was definitely an amazing experience and we were glad to participate in this.

We should follow the waste segregation techniques to keep our life safe and clean and keep us free from diseases...

Things to do at home:

1. Start segregating waste in your own house now. Segregation is one of the easiest practices to follow
2. Keep separate containers for dry and wet waste in the kitchen.
3. Keep two bags for dry waste collection – paper and plastic, for the rest of the household waste.
4. Keep plastic from the kitchen clean and dry and drop into the dry waste bin.
5. Send wet waste out of the home daily.
