

Computerese

An event called Computerese was conducted in a Thanthai Periyar Government school Pulithivakkam 8th august 2013. Selected students from CSE, IT and MCA taught students about the basics of computer and other things .

Members of CSI were split into many groups and each group taught each and every batch of students from 6th to 12th

Students of 6th to 8th were taught about basic components of the computer system higher class students had a session on C, C++ and HTML.

Inspirational videos were shown to the students . An idea of what to do after 12th was shared by the members of CSI . Technical games were conducted for the students. The session turned out to be an interactive session .

The session came out to be wonderful and was successful . The Students felt that the program was very useful and motivated them
