

## TWO WEEKS FDTP @ REVATURE

The Java training program was conducted by the Revature company to few teaching faculties belonging to the IT and CSE departments of the Jeppiaar Engineering College, from the 8th of May till the 19th of May, 2017 for the entire working-hour period (10 AM to 6 PM) with the goal of tweaking their proficiency in Java skills like Java SE, JDBC etcetra and other essentials for effecting the development of mobile/web applications. The training was attended by 6 staffs, namely Dr. Anbarasu Venkatachalam, Mrs. Gnanasowndari and Mrs. Thilakavathy belonging to the IT department, including 3 other staffs from the CSE department.

Revature is a technology talent development company providing a turn-key talent acquisition solution for corporate and government partners and no-cost coding bootcamps for university graduates.

The training which was conducted at Alwarpet, Chennai was acclaimed as a very benefiting program, that helped the staffs fructify their desire to gain proficiency in creating web/mobile applications. The staffs laud the trainers, expressing admiration for their expertise in the subject and the way they strengthened their basics, by clarifying all the fuzzy areas for each and every trainee, with ease.

This training offered by such a premier company's staffs as Revature's, not only enlightened the trainees by providing oodles of updates in the Application Development domain, but also reanimated the staffs' zeal in teaching their own pupil.

## EDUCATIONAL SPEECH FROM ADVISORY BUREAU

An education speech was conducted on 30<sup>th</sup> June 2017 for interested final year students to get excel in higher education. The lecture was organized by Dr. Veronica Shalini department of Biotechnology, Jeppiaar Engineering College. There were total of 100 students and 25 from information technology department from 10:15 am to 3 pm in library seminar hall. The speech was given by Mrs. Reshmy from education matters of career overseas council (coc).the speech

was about the higher studies which will benefit the pupil for the refining vision to reach higher heights in future.

The education which would enlighten students to learn in abroad and could be placed accordingly. The placement and details according to fee and depends upon the country choosen. Visa would be given in terms of study and if placed the years would be extended accordingly.

### **ALUMNI MEET**

The alumni meet, organized by jeppiaar engineering college was held on 24.6.2017 at Dr. jeppiaar auditorium between 9am and 5pm. The event was mainly conducted to bring all the passed out students together. This occasion takes place once in every year. There were totally 35 participants altogether. The chief guest of the event was our honourable Director Madam, Dr.Regina Jeppiaar. The meet showcased a music band with Mr.Hariprasanth of 4<sup>th</sup> year IT department as the lead singer. There were various games conducted which included drawing, dancing, balloon games and tug of war. All the participants were happy to meet their friends after a very long time. The motive of the event is to bring togetherness within our friends and teachers. Photographs were taken which is considered as a token of love and memory. The event was a grand success and every participant had delivered a speech about their lives and deliver their sense of belongingness towards our college. We hope every year this event takes place.

### **The CSI Induction Program**

The "Join CSI" program which was held on the 3rd of July, 2017 was organized by the CSI coordinating staff Dr. Jesu Jayarin and Mr. Fenil belonging to the CSE and IT departments of Jeppiaar Engineering College respectively, with a view of endorsing the CSI community and its benefits, to the students who had presently stepped into their sophomore year of engineering.

The induction program was a team effort by all the coordinators of the CSI community, whereas it was presented by three among them, namely S. Roshini of the CSE department, and S. Preethi and G. Praveen Kumar belonging to the IT department, in the seminar hall, with approximately 250 students serving as the audience.

The Computer Society of India was espoused and adopted as a part of the Jeppiaar Engineering College in the year 2006. It is an organization dedicated for the students belonging to the CSE and IT departments.

The events conducted thus far, through the CSI community, which included innovative technical activities that benefit versatile fields, were exhibited for the students, in order to help them discern the vision and mission of the organization.

The effectuation of adding members to the community is to be expected very soon.

### **The IEEE star event**

The high school students were updated with the latest technology in trend by the IEEE student branch of Jeppiaar engineering college as guidance for the students to make use of the technology effectively in their life. As we all know technology makes our life easier and shrinks the world.

The event took place Jeppiaar School and Iyyapanthangal Government School where the IEEE student branch of Jeppiaar engineering college and various technologies were demonstrated before the students. There were also a section to make the students aware of various environmental issues that are in threatening to enrich the awareness among the students to take precautions, also to save the environment and avoid exploitation.

The IEEE student branch also demonstrated a robot which was integrated with the help of the R and D team of our college which was entertaining as well as the informative. The various project which was demonstrated such as solar panel, working of an motor, functions of a generator etc in easily understandable language.

## **IOT WORKSHOP**

It was all smiles on the students faces who participated in the IOT workshop. They say it was the best ever workshop conducted by the department of Information Technology. Almost 40 students took part in the workshop and it has been said that the workshop was well worth the money. Students who are apart of Computer Society of India (CSI) paid Rs400 and the others paid Rs500. The workshop took place at the IT laboratory assisted by lecturers Ms. X.Francis Jency and Mr. D.Ashwin from kumaraguru College of Engineering, Coimbatore. The organiser of this workshop was Mr.E.Fenil and the coordinators were Mr.B.Ayyapan, Mr.A.Gladwin,Mr.P.Vaisagan , all from our department. The workshop held for two days (on 5th and 6th of July) , during college hours from 8 am to 3 pm. The workshop was mainly based on the usage of different types of sensors like Passive Infrared Sensor(PIR),Light Dependent Resistor(LDR),DHT sensor (temperature and humidity detecting sensor), etc.It also featured communication using GSM, ethernet, Bluetooth etc. It has been said that the workshop was really informative and the students look forward to many such workshops in future!!

## **MOTIVATIONAL TALK SESSION BY IEEE STUDENT CHAPTER**

The IEEE student branch of Jeppiaar engineering college has started its events with a bang as it conducted an event "MOTIVATIONAL TALK" on 27<sup>th</sup> of June 2017, as the first event of this academic year which became a grand success. In IEEE the events are generally conducted by the IEEE members for the welfare of the students.

The talk was delivered by Mr. Jayaprakash Gandhi, career consultant and analyst. It was attended by the IEEE members. The session was much more interactive and also covered how to answer aptitude questions in a simple and creative way. Stressing the need of education beyond syllabus, he said 70 percent is out dated. Many thought provoking questions were put forward to the students as the trigger for their brains to think out of box.

Towards the end, he gave some ideas of various Engineering domain for their future scope so that students could perceive their jobs in various new domain. Stating that the entire world was moving towards the automation and new innovation was killing the industries, he cautioned that the robots would take over 90 percent of the jobs by 2045. The session thus ended up useful and productive.

## DEPARTMENT INAUGURATION

The department of Information Technology was transposed from its previous building to the freshman-laboratory building, which had been containing the Engineering Physics, Chemistry, Computer Programming and other few laboratories. The Information Technology was inaugurated on the 14th of June, 2017 in its new orientation. The inauguration program was a propitious celebration, held during an auspicious hour, in an encouraging environment attended by all the department faculties along with the most enthusiastic Head of the Department Dr.Sabitha, in presence of the respected Principal of the college, Dr.J Venu Gopalakrishnan. The presence of the vivacious, high-spirited Director, Dr.Regeena Jeppiaar further took the ambience of the celebration to high spirits and made it effervescent for the members of the department. The zeal of the students was also at its zenith, as they entered into the renovated classrooms.
